ADITI CHOUBEY
| PYTHON & DJANGO DEVELOPER |

ABOUT ME

BCA student with a strong command of Python, Django, HTML, CSS, JavaScript, and Java. Actively working on full-stack web applications using Django and Tailwind CSS. Skilled in backend development, responsive design, and clean code practices. Looking to contribute to an innovative IT team where I can apply my technical skills, grow professionally, and deliver impactful solutions.

LANGUAGES

English – Professional Proficiency

Hindi – Native or Bilingual Proficiency

PROJECTS

Online Quiz Platform , Gift E-Commerce Platform
Tech Stack: React (Vite), Node.js, Express.js, MongoDB, Tailwind **CSS**
Key Features:
User signup/login with session/token-based authentication
Seller dashboard with product management and sales tracking
Responsive UI with Tailwind CSS and conditional rendering
Real-time updates and RESTful API integration

Developed a full-stack e-commerce website focused on selling personalized and emotional gifts. The platform includes user authentication, product catalog, smart cart handling, order placement, and seller/admin dashboards. Frontend was built using React with Vite for lightning-fast development, and the backend was implemented in Node.js with Express, storing data in MongoDB for high scalability.
